Classical Stone Cottage

Category:
Residential

Location:
Huntsville, AL

General Contractor:
B.T. Neeley

Overlooking the valley below, this residence sits upon a narrow bluff lot within The Ledges, a traditional neighborhood development. The classical cottage design incorporates pediments, Tuscan columns and stone to emphasize a rustic quality found in Italy. In order to take advantage of the views, the 3,512 square foot house was designed to open onto a covered porch and terrace from the main living, kitchen and master bedroom.
