Mark C. Smith Concert Hall

Category:

*Convention /
Entertainment*

Location:

Huntsville, AL

General Contractor:

VCC

The renovation of the Mark C. Smith Concert Hall at the VBC in Huntsville, Alabama includes 70,500 square feet of renovated area, as well as 4,800 square feet of new construction. Originally opened in 1975, the facility was in desperate need of maintenance to address aging building equipment and finishes. The magnitude of the renovations allowed for the opportunity to incorporate other improvements which would improve the overall experience of the patrons and users.
